Dear Hiring Manager,

I am writing to express my enthusiastic interest in the Product / Engineering Manager position. With a background in driving innovation in software development and a passion for leveraging technology to create impactful solutions, I am excited about the opportunity to contribute to your dynamic team.

Throughout my career, I have demonstrated a commitment to pushing the boundaries of technology to deliver tangible results. In my recent role at Moderna, I led a team in developing mChat, an AI-powered chatbot that significantly increased accessibility to AI-driven assistance for Moderna employees, demonstrating my ability to deliver impactful solutions that address real-world challenges.

My tenure at Tableau further honed my skills in managing cross-functional teams and spearheading complex projects. As a Software Engineering Manager, I successfully doubled the size of the Visualization Pipeline team and led cloud migration efforts, resulting in enhanced scalability and improved performance.

Additionally, my experience in fostering a culture of innovation aligns closely with your organization's commitment to driving technological advancements.

I am particularly drawn to the opportunity to lead engineering efforts for transformative projects at your organization. Your commitment to innovation and delivering exceptional products resonates with my own values, and I am eager to contribute to a culture built on creativity, collaboration, and excellence.

Thank you for considering my application. I am confident that my technical expertise, leadership skills, and passion for innovation make me a strong fit for this role. I look forward to the opportunity to discuss how my background and skills align with your needs in more detail.

Sincerely,

Ameen Demiry (Mohamed Ibrahim)
